

‘Paint the Night’ Parade Fun Facts

ANAHEIM, Calif. (June 19, 2018) – The fan-favorite “Paint the Night” parade has returned to the Disneyland Resort for Pixar Fest. For the first time, “Paint the Night” makes its way through Disney California Adventure Park with more than 1 million brilliant lights, high-energy music and cutting edge special effects featuring many beloved Disney and Pixar pals. The parade becomes even more super with the opening of Pixar Pier, as “Paint the Night” adds a new float inspired by “The Incredibles” and “Incredibles 2.” The epic Parr family and their pal Frozone make their first appearance in this electrifying parade, bringing all of the fun and excitement of “The Incredibles” to life with high-tech, pop-art effects inspired by the mid-century modern style of the films.

Guests will enjoy nightly performances of “Paint the Night” with Sorcerer Mickey, who uses his vivid imagination to harness the power of Tinker Bell’s pixie dust to “Paint the Night,” bringing to light the beloved characters and friendships from Disney•Pixar’s “Monsters, Inc.,” “Cars,” “Toy Story,” Disney’s “The Little Mermaid,” “Beauty and the Beast” and more. Guests will get in the spirit as the parade’s theme song plays, “When Can I See You Again.”

“Paint the Night” dining packages are available for guests at Carthay Circle Restaurant and Wine Country Trattoria. Guests who dine at these restaurants receive a voucher for entrance to one of the reserved areas designated for viewing “Paint the Night.” Details about the dining packages and information about reservations are available at Disneyland.com.

By the Numbers

- Including the video screens, the parade contains more than one million sources of light.
- The 500 strobes used in the parade are a custom lighting product developed by Disney.
- “Paint the Night” requires more than 200 “universes of control” to operate everything from the video presentations on the floats to the lights on individual costumes.

“You Can Fly!” -- Tinker Bell and Peter Pan

- The Tinker Bell float is 40 feet long, with 44 universes of control and, including video screens, more than 850,000 points of light.
- Power and control for Tinker Bell’s lighted costume come from the float itself. Tinker Bell’s shoe poufs are lit by fiber optics.

“If I Didn’t Have You” - Mike and Sulley from “Monsters, Inc.”

- The “Monsters, Inc.” float is 11 feet wide and 21 feet long, and it glows with nearly 17,000 points of light.
- The five animated doors on this float are more than nine feet tall with 40 individual LED video panels. They were created in collaboration with Pixar Animation Studios.

“Life is a Highway” -- Lightning McQueen and Mack from “Cars”

- The “Cars” unit features everyone’s favorite Piston Cup Champion, Lightning McQueen, along with Mack and DJ.
- At 54 feet long, Mack is the longest vehicle in the parade, with 28 moving lights.
- Mack’s design features a 3D display that creates exceptional depth of image. The display contains nearly 27,000 individual orbs.
- Almost 2,000 feet of LED “neon” helps bring this float to life.

“Under the Sea” - “The Little Mermaid”

- King Triton stands over 12 feet tall.
- “The Little Mermaid” float is 32 feet long and 11 feet wide.
- There are nine fish, eight flowers and more than 250 blades of grass.

Arrangement of songs by composer Michael Giacchino - “The Incredibles” and “Incredibles 2”

- This new float is 11 feet wide, 18 feet tall, and 30 feet long.
- Frozone stands nearly 12 feet off the ground on his very own ice trail.
- Dash’s super-human speed is captured through an innovative system of 64 individually lit frames, flashing as he races in circles around the float.
- Guests need to keep an eye out for Jack-Jack, as he uses several of his super powers to pop in and out of four different places on the float.

“You’ve Got a Friend in Me” - “Toy Story”

- Slinky Dog scampers along, with Woody and Buzz Lightyear holding on for the ride.
- The 10 spinning disks rotate at 120 RPM and are programmed with custom video content.
- The float is 32 feet long, and Slinky’s ears are 18 feet tall and 11 feet across.

“Beauty and the Beast” and “At Last I See the Light” - Disney Princesses

- Belle’s video screen contains more than 500,000 pixels, presenting scenes from “Beauty and the Beast” as well as floral graphic imagery and starry night skies.
- In addition to color-changing programmable ribbons, Belle’s dress has 40 custom-designed jewels and the most decorative lighting caps of any float.
- The float is 26 feet long and the rose alone is 17 feet tall.

Mickey Mouse & Friends Finale

- The Mickey Mouse float is 31 feet long, has 40 universes of control and more than 10,000 points of light.
- Mickey “conducts” the finale of the parade from 12 feet above the street.
- Joining Mickey Mouse, and appearing on a series of smaller whirling parade vehicles, are Goofy, Donald Duck and Minnie Mouse. Each whirling vehicle shines with 352 points of light custom-designed for the character on board.
- The spiraling kinetic sculpture on this float is 14 feet tall and seven feet wide. It contains nearly 7,000 individually programmable LED pixels.
