Disney’s Typhoon Lagoon is a 60-acre themed water park – inspired by the legend of a typhoon, earthquake and volcanic eruption. As the story goes, those events combined to create an inland sea with break waves (Typhoon Lagoon) and a towering watershed mountain (Mt. Mayday) with a stranded shrimp boat (the Miss Tilly) on top.

The park offers water activities for all ages, including signature attractions such as the water-coaster Crush 'n' Gusher; the water playground, Ketchakiddee Creek; and the popular Castaway Creek, a meandering lazy river.
